From: The property viewed towards the South, in Millbrook, Elmore (AL) - The manor is built in the middle of the park and on the top of the place. A vision towards the South. A more extended description is in getting ready.

TO: TITLE: Geometrical Triangle

Description:: The property viewed towards the south. The Antebellum Southern Mansion was built with flat roofs. The owners had it redesigned to pick it into a triangular shape changing it's looks from a Southern Mansion to a Palladian Villa. Two king lions decorate the steps to the front door. Sitting on their post they overlook the circular marble chips driveway as to protect the house from intruders. The lions are extremely heavy, made of solid concrete.

From: The property viewed towards the South, in Millbrook, Elmore (AL) - The manor is built in the middle of the park and on the top of the place. A vision towards the South. A more extended description is in getting ready.

TO: TITLE: Front of Cottage

Description : Part of the extended back driveway entring from Monument Drive, leading to the side entrance of the guest house, where the guests park their vehicles under the shelter of the side carport. By the front entrance sheltered by a second carport stands an ancient Cedar tree always full of life in it's bright green color. On the left side is view of the back door of the swimming pool building with on the big exhaust louvered fans.

TO: TITLE: Apartment

Description : Partial view of the extended downstairs apartment. The semi-circular concrete patio houses a big, fruit bearing palm tree right in the middle of it. What a beautiful sight to open the bedroom door in the morning and look at endless skies, different color greens, colorful flowers and hear the happy chirping of different kind birds. This property would be a true gold mine for an entrepreneur developer.

**REVIEW: DEVELEPPER**

TO: TITLE: Brick Chimneys

Description : Old Adobe brick chimneys stand tall sticking out of the metal roof, all triangularly picked. There are four big fireplaces in the modernized villa for sale. The manor is surrounded by big native and exotic trees. The big Magnolia on the right is a native of this zone. It's scent fills the area when in bloom. The side entrance with two smaller columns is partially hid by big Azaleas and White Olive bushes. The blooming red roses harmonize with the spotless white of the Magnolia flowers creating a haven for new caterpillars to grow into beautiful butterflies who swish through the air all summer long with beautiful display of different spotted colors.

From: The property viewed towards the South, in Millbrook, Elmore (AL) - The manor is built in the middle of the park and on the top of the place. A vision towards the South. A more extended description is in getting ready.

TO: TITLE: Heat cover

Description : The indoor, large, heated salt water pool is covered with a heat cover to assure that the steam of the heated water does not build up to damage the building, or produce mildew. Plenty of sun light is well distributed to the building through the six sky lights above and the six glass sliding doors with screens. The sound of the circulating water is very relaxing and helps concentration. The pool building is the ideal place to read and relax or just float in the warm water and chill out. A central natural gas heating system was installed for comfort. We built a bathroom and installed an electric hot water heater for the pool shower and sink. Every now and then we allow a class of school children to come swim with us. Soon the quite building becomes as noisy as a concert hall. We posted two signs by the front door. One is the classical NO SMOKING, the second is NO P IN THE OOL (notice there is NO-P- in the OOL and we want to make sure that when you have to PEEEE you get out of the water, use the bathroom and wash your hands.

TO: TITLE: Mind and Body

Description : This is life, sun light, open space and exercise. A good cup of coffee, a good book to read right in the middle of mother nature. Every now and then we allow a class of school children to come swim with us. All the liability insurance and parental permission are handled by the school. The school also has to provide a life guard. Soon the quiet building becomes as noisy as a concert hall. We built a bathroom and installed a hot water heater for the shower. We also posted two signs by the front door "No Smoking" and "No Pee in the OOL. Notice there is a P missing in the pool. That is because we do not want any -Pee- in the water. Children need to get out of the water and deposit their Pee in the bathroom.

TO: TITLE: Medlar Trees

Description: Mespilus germanica is a very common tree in Italy. I ate some of it's fruits while overseas. After a month of my return to Alabama I unpacked my luggage and found two almond looking nuts. I new they were seeds but did not recognize them. I put them in a flower pot in my green house. To my astonishment they sprouted in the spring. I removed them from the pot and planted them in the yard at the direction of the Magnolia tree. In a three year period my two trees grew and produced their fruits. It's a little fuzzy fruit that resembles apricots. Big Oak and Crepe Myrtle tree growing behind overpower the two Medlar trees.
